Washbasin heater with a stainless steel tank

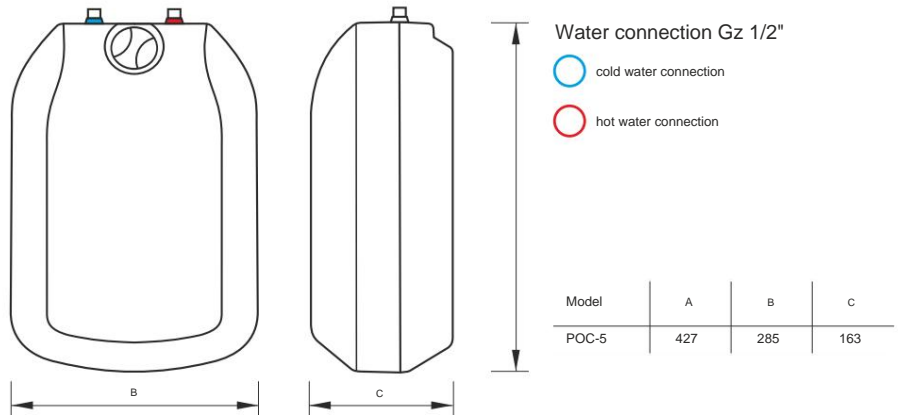

### Application

### The most important advantages

- Stainless steel tank
- 4 Corrosion resistant
- 4 does not require periodic replacement of the anode
- Efficient heater with a power of 2000W 4 5.5 min. for 5 liters
- Energy class A
- 4 very little energy loss
- Comfortable temperature regulation
- 4 smooth change of water temperature in the range of 23-70°C

### Dimensions

### Technical data

Product code	Rated power/supply	Water pressure (MPa)	Capacity (l)	Heating time $\dot{y}t = 30\text{ C}$ (min.) °
POC.D-5	2 kW / 230V 2	0,6	5	5,5
POC.G-5	kW / 230V	0,6	5	5,5
POC.D-5 600W	0,6 kW / 230V	0,6	5	18

### Additional equipment

Product code	Description
BATERIA.POC.Gb	Kospel chrome faucet for the POC.G heater with a spout and connection pipes
